

# CANCEROUS

## ULCERS

Are in many respects like other ulcers or sores, and this resemblance often proves fatal. Valuable time is lost in fruitless efforts to heal the sore with washes and salves, because the germs of Cancer that are multiplying in the blood and the new Cancer cells which are constantly developing keep up the irritation and discharge, and at last sharp shooting pains announce the approach of the eating and sloughing stage, and a hideous, sickening cancerous sore begins its destructive work.

No ulcer or sore can exist without some predisposing internal cause that has poisoned the blood, and the open discharging ulcer, or the festering sore on the lip, cheek or other part of the body will continue to spread and eat deeper into the flesh unless the blood is purified and the Cancer germs or morbid matter eliminated from the circulation.

S. S. S. cleanses the blood of all decaying effete matter. It has great antidotal and purifying properties that soon destroy the germs and poisons and restore the blood to its natural condition. And when pure blood is carried to the ulcer or sore the healing process begins, the discharge ceases and the place heals over and new skin forms. S. S. S. is a strictly vegetable blood purifier containing no mercury or minerals of any description.

• If you have an ulcer or chronic sore of any kind, write us about it, medical advice will cost you nothing. Books on Cancer and other diseases of the blood will be sent free.

## MILD ROAST.

THE CINCINNATI ENQUIRER GIVES A FEW POINTS ABOUT THE LEGISLATURE.

A Frankfort dispatch to the Cincinnati Enquirer says:

The session of the Kentucky legislature of 1902 has come to an end.

The legislature has richly endowed all the institutions of the state.

It has raised the taxes 2 1-2 cents on the hundred dollars.

It has raised all the salaries in Louisville except one, and tried twice to give that one a lift.

It has refused to provide money for a new state capitol.

It has refused to furnish funds for a Kentucky representation at the Louisiana Purchase Exposition, where every other state in the union will be represented.

It has failed to redistrict the state according to the requirement of the constitution.

It has refused to pass a bill providing for cheaper school books and indorsed as a Democratic measure.

It has fiercely passed intemperate measures in one branch, and forgot them before they reached the other branch. This refers particularly to the Byron anti-trust bill, but applies generally down to measures to nail shut poolrooms and scourge bad whiskey from the land.

It has been divided critically on the question of allowing cattle to run at large, and after two painful crises has left that matter to be settled locally on spot with a club or otherwise, as may be advisable.

It has been a conservative legislature as you look at it one way. And from another aspect it has been celluloid collar affair.

## GOOD RATE GIVEN.

RAILROADS MAKE ARRANGEMENTS TO BRING DELEGATES TO MEDICAL CONVENTION.

The railroad committee, appointed to confer with the railroads of Kentucky and Tennessee relative to rates during the session of the State Medical Society here, have succeeded in getting satisfactory rates from the railroad people.

All the roads running in Tennessee and Kentucky have agreed to make the fare during the meeting of the state society one and one-third fare for the round trip.

The doctors are making great preparations for the meeting and will make it the most successful ever held in the state. By the consolidation of the Southwestern Medical Society and the state society, the attendance will be much larger than was at first expected and there will probably be 300 visitors.

## PRINCE REPORTS TO KAISER

LENGTHY ACCOUNT GIVEN OF THE TRIP TO AMERICA.

Berlin, March 21--Prince Henry landed at Kiel at dusk and joined Princess Irene and their sons. The royal brothers had a talk today lasting several hours, and Prince Henry told Emperor William his experiences from the beginning to the end of his trip.

Members of the prince's party are telling with great delight how they were amused while on their travels at the calls of "Speech," "Speech," from the crowds collected at wayside places to greet the prince and the cries of "How's your brother Billy?"

## HIS SISTER ILL.

DR. W. F. ALVEY CALLED TO CECILIA THIS MORNING.

Dr. W. F. Alvey the well known physician, was called to Cecilia, Ky., this morning by the illness of his sister, Miss Josie Alvey. He received a telegram this morning saying that she was dangerously ill and to come at once. He left on the noon train.

Miss Alvey is well known here, having visited her brother several times. Her many friends here will regret to learn of her illness.

## HAS BEEN AMENDED.

THE LIBRARY WILL BE IN THE HANDS OF TRUSTEES.

It seems that the law placing public libraries in the hands of the board of education in second class cities has been amended, and now places it in the hands of five trustees instead. This will not affect the board now in charge of the library project here. The amendment was not included in the statutes examined by The Sun's informant of yesterday.

## WHAT WE AMERICANS READ.

(New York Press.)

John Cotton Dana, of the Newark Free Library, has made the figures show that we read as follows: In one year the total number of daily, weekly and monthly copies of "periodicals" published in the United States is: Dailies, 2,865,466,000; weeklies, 1,208,190,000; monthlies, 263,452,000; total, 4,337,108,000 copies. He estimates that the annual output of these periodicals would make 2,000,000,000 copies of a book the size of one of the trashy novels of the day, that is to say, a book about 350 pages, containing 400 pages. About 10,000,000 new books are sold annually, Mr. Dana thinks, comprising 4,500 titles, and in his opinion 40,000,000 of our population could read if they would. The annual output of the monthlies is set down at 285,000,000 copies.

## DANGERS OF PNEUMONIA.

A cold at this time if neglected is liable to cause pneumonia, which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia.

J. C. GILBERT.

## ALL BOXES REPAIRED.

The fire alarm system is now in good working order again, and the cost of repairing it from the damage of the sleet storm was about \$1,000. Yesterday afternoon box 23 was placed on Fourth street, and the tippie, and there is now only one more box to complete the circuit, box 47, which, when it arrives, shall be near the union depot.

## A SEVERE COLD FOR

THREE MONTHS.

The following letter from A. J. Nustbaum of Batesville, Ind., tells its own story "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me." Refuse substitutes.

J. C. GILBERT.

## FOUND FOR PLAINTIFF.

The writ of detainer of J. P. Holt against T. N. Seay for the possession of a \$900 strip of land was tried in Justice Gholson's court yesterday, and a judgment rendered in favor of the plaintiff. The claim set up was that the price agreed on when the land was sold had not been paid by the defendant, or any part of it paid.

## FOLEY'S HONEY AND TAR

Cures coughs and colds. Cures bronchitis and asthma. Cures croup and whooping cough. Cures hoarseness and bronchial troubles. Cures pneumonia and la grippe.

J. C. GILBERT.

## ATTENDING COURT

AT MAYFIELD.

Attorney Oliver went to Mayfield today to attend circuit court as a representative of Drs. Brooks and Coyle, who have sued Albert Lucas for \$150 alleged to be due for a surgical operation.

## RAW OR INFLAMED LUNGS

Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs.

J. C. GILBERT.

## LIVELY FOR A TIME.

There was a lively runaway on lower Court street this morning when one of the F. W. Cook brewery wagon horses became frightened and started off. A case of beer was thrown out at First and Court and broken but other than this no damage was done as the animal was stopped a short distance away.

## PNEUMONIA FOLLOWS A COLD.

But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes.

J. C. GILBERT.
